

PD Power Bank  
QP58 · QS58

A Charge That  
Won't Weigh  
You Down

### Charge/Recharge In The Fast Lane

Speed up your charging time with 20W Power Delivery (PD) via 1 Type-C port and 18W QC3.0 via 2 USB Type-A ports. The 20W Type-C port has enough power to charge an iPhone 14 from 0% to 50% in just 30 minutes. Plus, charge the power bank itself in only 3.5 hours (QP58) or 6.5 hours (QS58) with Rapid Recharge, which allows for rapid input charging via the Type-C port when connected to a quick charge PD power adapter.

### Not Just Quick – Also Handy

The QP58/QS58 is equipped with a high-density battery, which is 30% smaller in volume and 25% lighter in weight than batteries of comparable capacities. No matter which capacity you choose, this power bank is easy to carry around or throw in your bag without weighing you down.
