

ATR2100x-USB

STREAMING/PODCASTING MICROPHONE

The **ATR2100x-USB** is a versatile content creation microphone, designed for live performance, podcasting, and voiceover use. This rugged handheld microphone offers two outputs: a USB output that connects to your computer or other device for digital recording, and an XLR output that connects to a sound system's conventional microphone input for use in live performance. The **ATR2100x-USB** also offers a high-quality analogue-to-digital converter (24-bit, up to 192 kHz) for excellent fidelity, and a headphone jack with level control for direct monitoring from the microphone. Its cardioid polar pattern reduces pickup of unwanted sounds from the sides and rear. The mic includes an on/off switch and comes with two 2 m USB cables (USB-C to USB-C, USB-C to USB-A) and a 3 m XLR-to-XLR cable for maximum versatility. A sturdy tripod desk stand with folding legs is also included for use on tabletops.

- Handheld dynamic microphone with USB-C digital output and XLR analog output
- USB output connects to your computer for digital recording, while the XLR output connects with your sound system's conventional microphone input for use in live performance
- Smooth, extended frequency response ideally suited for podcasting, home studio recording, field recording, voiceover, and other content creation applications
- Built-in headphone jack lets you monitor directly from the microphone
- Dial on the bottom of the microphone allows you to easily adjust headphone volume
- High-quality A/D converter with 24-bit, up to 192 kHz sampling rate
- Compatible with Windows and Mac
- Low-mass diaphragm provides excellent frequency response
- Cardioid polar pattern reduces pickup of unwanted sounds from the sides and rear, improving isolation of desired sound source
- Sturdy tripod desk stand with folding legs is easy to set up and transport
- Threaded stand clamp attaches securely to the supplied tripod or to a conventional microphone stand
- Includes three cables: USB-C to USB-C, USB-C to USB-A, and XLR to XLR
- Durable metal construction for long-lasting performance
- On/off switch functions for both USB and analogue operation
