LEGION

M600s Qi Wireless Gaming Mouse

Ultra-Light Qi Gaming For The Pros.

The Lenovo Legion M600s Qi Gaming Mouse delivers unparalleled performance and comfort, all at a record-breaking weight of 73g. The M600s Qi mouse also brings speedy born-to-game optical micro-switches and an extremely precise 19,000 DPI Pixart 3370 sensor to the table. Not to mention its 80M click lifetime, 6 programmable buttons, and choice of USB-C or Wireless Qi charging. M600s Qi is also compatible with NVIDIA Reflex to deliver the ultimate competitive advantage.

WHY CHOOSE THE LENOVO LEGION M600s Qi WIRELESS GAMING MOUSE?

Unmatched wireless gaming
Ushering in a new era of high-performance wireless gaming, the M600s Qi Wireless Gaming Mouse can be effortlessly charged via wired USB-C or wirelessly with an S600 Gaming Station or any other Qi Charger. With months of battery life on a full 2-hour charge and 10 hours[1] off a 10-min charge, you'll never be let down again.

Near-weightless construction
Weight is a key metric in any sport, and the M600s Qi knows it. Built with environmental-friendly PCR (Post-Consumer Recycled) materials and ingeniously engineered internals, it delivers near-weightless gliding at just 73 g.

Truly masterful ergonomics
The M600s Qi Wireless Gaming Mouse was carefully crafted with a short, low arch and slim waist with mirrored-textured side-grips to provide lasting comfort to claw-grip & finger-tip gamers. Add to the mix 100% Teflon mouse feet, and you've got a frictionless tactical gliding experience to boot.
